```javascript
function diffArray(arr1, arr2) {
    var newArr = [];
    let arr = arr1.concat(arr2);
    //   return arr1.concat(arr2).filter(item=>
    // !arr1.includes(item) || !arr2.includes

    //   )
    for(let i=0;i<arr.length;i++){
    if(!arr1.includes(arr[i]) || !arr2.includes(arr[i])){
        newArr.push(arr[i])
        }
    }
    return newArr;

}

diffArray([1, 2, 3, 5], [1, 2, 3, 4, 5]);
```
